

Jacket & Pant sizes (the Order Codes are European sizes not English)

The most important measurement is the chest measurement. To check your chest size measure around the widest part of your chest in inches when you have a full breath of air. Choose a jacket size that is just larger than your chest size so if your chest measures 40" then you could choose a size 50 jacket for a close fit or a 52 jacket for a slightly looser fit. If your chest size is very close to a size (eg 39¾") or is on one of the sizes (eg 40") and you prefer not to have a close fit then you will be best off with one size larger, in this case a 52. Remember, it is best not to wear your kit too tight as it will restrict your movement and prevent ventilation.

MEN

Order Code	44	46	48	50	52	54	56	58	60	62
Height cm	164-170	164-170	170-176	170-176	176-182	176-182	176-182	182-188	182-188	182-188
